Parents Orientation

With the new session commencing on the **17th March**, the **Foundation and Junior Program** teachers invited the parents for an orientation session to apprise everyone of the latest developments. The **Principal, Mrs. Shashi Banerjee**, addressed the parents and held an open forum, answering to the queries and concerns.

An experiential session followed with a guided tour of the **DDA Sports Complex** where **Mr. Sudhir, Mr.**

Siddharth and Ms. Geetanjali explained the new plan for the **Sports Program**.

Classroom sessions with the class teachers followed with the parents experiencing the various classroom practices ranging from circle time, project or theme work and subject teaching. Overall, the teachers and the parents had detailed discussions

about the innovations introduced and methods to motivate the children effectively.

PTM of Foundation and Junior Programme

Parent Teacher Meeting was held for the **Foundation & Junior**

Programme i.e. **Classes Pre-School to V** on **20th February, 2009**. As the school always believes in giving the best to the students to develop a holistic personality, parents had an open discussion with the teachers regarding their child's academic performance. The parents met the HRT's and discussed various points to further encourage and

motivate the students to perform well in the upcoming session.

Aim as high as you can. Don't let anything limit your faith.

"The Power is within you. You can do anything and everything. Believe in that don't believe that you are weak. Stand up and express the divinity within you"

High School Visioning Programme

On 28th February, the students, parents and teachers of the High School came together to share their views about their vision for the high school.

The program started at 10:30 a.m. with the Principal, Mrs. Shashi Banerjee addressing the gathering, she stressed on the schools commitment towards providing holistic and meaningful learning experiences to the students to facilitate their understanding of the real world and its challenges. Then Mrs. Annu Jain lead the group through an ice breaking activity which set the tone for the

days proceedings.

Mr. Parminder from Disha India, took the program forward. 10 small groups were formed, each having representatives from students, teachers and parents, wherein everyone shared their t 'Glad' and 'Mad' moments in school.

Then the discussion moved towards what does the Heritage child of their dreams should be like. The participants listed all those qualities which they felt a Heritage child should possess. For eg :

- ◆ Sincere and Hard-working
- ◆ Independent and free thinker
- ◆ Socially responsible
- ◆ Confident

Then the groups made presentations about what a school should do to develop these qualities in their students. In all it was a very interactive session where opinions of all the three important components of the school – the students, teachers and parent community came together to a shared under-

Parents Open Forum

In keeping with the commitment of bringing in transparency in the school practices, the parents were invited to participate in an Open Forum with the principal, Mrs. Shashi Banerjee.

The parents voiced their apprehensions and fears regarding various issues. Mrs. Banerjee also explained the structure of the school day for the student and the necessity of a curriculum driven schooling that has been framed for the new session. In all, it was a very interactive session. The School timings were agreed upon as :-

- ◆ Class III to Class XII - 7:40 am to 2:30 pm

- ◆ Pre Primary to Class II - 7:40 am to 12:45 pm.

Parent Teacher Meet Declaration of Results

Parents of students of Classes VI to XII came to collect and discuss the result. They were given a hand out about the new practices that would be introduced in the new session.

The parents had a fruitful discussion and all their queries were answered by the teachers.

Here are some of the speeches made by the students of Class-VIII as a part of their oral assessment

Children of today have No Time to Stand and Stare

Respected Principal Ma'am, teachers and my dear friends. A very warm good morning to each one of you. Today I share my views on "**Children of Today Have No Time To Stand and Stare**". I do not know about you people but I definitely agree to it. Friends don't you agree that the burden of studies have increased than what it used to be in our parents time. Just have a look at our schedule for the day. Getting up early in the morning

and going for 6 hours to school where we are subjected to a full dose of Science, Social Studies, Maths and other subjects. By the time we come back home we are mentally exhausted. But we can rest. No we cannot. To be able to cope up with whatever has been taught in school we have to go for our tuitions where our tutor revises whatever has been done during the day. This is necessary to enable us to be ready for our unit and semester exams.

By the time we come back home our brain has been fully saturated but can we think of just relaxing and

staring at an empty wall. No we cannot. For there is the homework to be completed. By the time that is completed we realize that it is our dinner time and after that it is time to go to bed as we have to get up early.

One would think that we would have time to relax over the weekend but no that is also not possible. Spending time alone is unheard of. It's like leaving the tap water running. Such an obscene waste. "Leave no stone unturned" is the motto of parents of middle level school students.

To be able to make our mark in school we not only have to excel in studies but also excel in sports like swimming and various games and extra co

curricular activities like music, dance or literary skills like debating.

For these activities we have our classes over the weekends. All this is necessary to be able to get a seat in an elite college

FRIENDS I am sure that your weekly schedule is like mine but do you think that is a good schedule? Don't you think that our parents and teachers should realize that we also require time for ourselves where we can do what we want including just standing and staring? I think I do and I am sure you also think so.

T thank you
Aishani Bhargava

Terror A Way of Life

Respected Principal Ma'am, teachers and my dear friends.

First I would like to thank the debating club of my school. For giving mean opportunity to speak before you. I am not fully agree with topic that is terror a way of life. No, way I endorse (accept) this topic. I have reasons and logic to put forward my views to share with you.

I am Shobhit of Class VIII B speaking on the topic "Terror a way of life" Terror can't be a way of life, it is a foolish concept. Terrorism has become a great threat across the globe. No country on the planet is away from terror, if u have answer, then tell me. Your answer would also be no. Terrorism is taking life of innocent people.

The terrorism has become a way of life for those who are marginalized (sided) in the society. They off course are in minority (less population). They want to terrorism the civil society. The history has been witnessing that nobody get success by terrorism. The handful of youths are taking to terrorism because of their wasted interest. We have seen, across the globe terrorism took thousand of life every year in the name of the religion, culture, territory, and regional chauvinism (area of one people are bad). This we call Nostalgia (when we think that are every think is better than others). But I would say they are not true believer, they have been distracted from the society to full fill their desire. For example: IF we see the terror attack on WTO to recently attack on Mumbai. We asses the situation that a particular organization is running its cam in a particular company to highlight their cause by killing innocent people. The ten terrorist belonging to L.E.T (Lashkar-e-taiba) which has its training camp in Pakistan. They have been sent to Guja-

rat Coast from off The Karachi Coast. They hijacked an Indian Ship named Kuber and killed all the crew. Members headed for Gujarat Coast position act Oberai Hotel, Taj Hotel, C.S.T (Chharterpati Shivaji Terminal) railway station and Nariman point. They kill innocent people including some foreigners. They fought with Indian NSG for 60n hours. Ladies and Gentlemen can we endorse this deed. It is the way of life where innocent lives have taken, therefore, I would say terrorism has no place in the society, therefore, it cannot be a way of life. If terrorism is a way of life we are only strenthing our neighboring countries hands. So, the terrorism is must be condemned (criticize) at full length. If terror would be a way of life there would not be peace on this planet. Hence, we should shun the way of violence and work for peace and harmony.

Thank You
Shobhit

So many people are expecting a miracle instead of being a miracle.

The Learning Principle

A Focus on each child Every Child Counts We believe each child is gifted and each child can perform. To do this child need to explore, be engaged, have fun and be empowered to discover new worlds of learning. However, in many ways, children differ in how they learn and grow.
